

WebTADS: New Time and Attendance System Demonstrations

As part of LaRC's Integrated Financial Management Program (IFMP), a new time and attendance system (WebTADS) will be rolled out at LaRC beginning in late July. This new system will replace the current "TADS" and "Carolyn Thomas" systems in use today and will offer a Web browser interface that supports accurate input of payroll and workforce data. The deployment of WebTADS supports the NASA Administrator's "Freedom to Manage" initiative. In his letter dated May 20, 2002, the Administrator detailed the simplification of the Time and Attendance process, and specifically stated "all employees would be responsible for entering his/her time into the T&A system."

In an effort to provide you an overview of WebTADS and also provide answers to questions that have been raised concerning the implementation, three system demonstrations have been scheduled at the Reid Conference Center. You are encouraged to attend one of the following scheduled demonstrations:

<u>Date</u>	<u>Time</u>
June 24	9:00am - 10:00am
June 24	1:00pm - 2:00pm
June 25	1:00pm - 2:00pm
